

For a big bass experience from a discreet subwoofer that can be placed almost anywhere in the room, the Seismix 1 Mk5 will provide the right sound while taking up half the space.

With a hefty 200mm downward firing woofer and vent, and a high quality class D amplifier, the Seismix 1 Mk5 combines high efficiency with low power consumption. Its compact design – with the raised cabinet kept off the floor with specially moulded rubber feet – provides flexibility, without sacrificing bass impact.

With effective design and simple styling, this unobtrusive subwoofer will look and sound great, whether tucked discreetly in the corner or built into custom joinery.

For the ultimate sound experience at home, play it through Krix.
